★ Advanced product designed for controlled use

Correct storage, handling, and use in accordance
with the Standard Operating Procedure (SOP) ensure reliable performance.

Traditional Air Sampling Looks Back.
MaTri SURE™ Moves You Forward.

Turn Days of Waiting into Just Hours
Get More Time to Protect Your Crops

**Cold-room air analysis in a single strip.
For immediate decision support.**

Traditional approach	MaTri SURE™ innovation
Gas sample collection Correct sampling timing required Special equipment Transport to laboratory	Test strip placed in the room
Analysis	Visual confirmation
Long waiting time	Immediate result after treatment
Context-heavy interpretation	Simple decision support
Result after the action window	Results just in time
